PROJECTS

BruinLease – UCLA Sublease Marketplace | Founder / Product Builder

- Built an MVP marketplace using Next.js, Supabase, and PostgreSQL, enabling users to browse a database of 20+ active listings
- Created an AI listing generator using the OpenAI API to structure apartment descriptions, reducing listing creation time by ~60%
- Integrated PostHog product analytics, tracking 5+ key user events to analyze demand patterns & enable analysis of user behavior
- Launched to UCLA student networks, generating 20+ listings, 300+ listing views, and 50+ search queries within the first week

CTA Update – Checkout Flow Optimization | Givingli

- Led product initiative to improve checkout conversion by updating CTA language to strengthen user confidence and navigation
- Authored a comprehensive PRD and dev handoff document to align cross-functional teams and ensure smooth implementation
- Created 4 detailed Figma mockups to explore multiple CTA design options, using UX design principles to visually test hierarchy
- Defined measurable success metrics and executed A/B tests with analysts, increasing conversion and attachment rates by ~63%
- Presented key findings and actionable recommendations to leadership, influencing future checkout flow optimization decisions

EXPERIENCE

Illumia

Los Angeles, CA

Product Management Intern

June 2026 – August 2026

- Synthesized 10 user interviews, 9 support tickets, and 25 survey responses to diagnose a 26% authorized-payer inactivity rate
- Partnered with marketing to build 2 prototypes, converge on 1 final design, and validate 3 hypotheses across 8 usability sessions
- Prioritized a backlog of 17 client-submitted ideas across 5 themes, ranking by severity to scope an 8-week research sprint
- Defined 1 North Star goal and delivered 2 product recommendations to leadership using SVPG's Double Diamond framework

Givingli | Series A Digital Gifting Platform

Los Angeles, CA

Product Management Intern

June 2025 – September 2025

- Optimized checkout conversion via A/B tests and UX enhancements, increasing purchase-step conversion rate from 4.8 to 7.82%
- Partnered with engineer and design to draft 9 PRDs, create 17 prototypes, and execute 9 design-to-dev handoffs for roadmapping
- Transformed feedback from 26 customer interviews into useful UX improvements, streamlining for a more intuitive user journey
- Conducted backend cleanup, restructuring hundreds of events to ensure precise tracking and enable accurate KPI measurement

TAMID Consulting Group

Los Angeles, CA

Senior Student Analyst

January 2025 – Present

- Conduct market research and financial analysis to forecast revenue potential and advise strategic recommendations for 5 startups
- Collaborate cross-functionally with marketing and finance to deliver strategies modeling ~15% projected improvement in revenue
- Develop 6 informative company pitch decks to effectively communicate key findings, investment rationale, and growth strategies
- Mentor 13 junior analysts by providing guidance on research methodologies, analytical techniques, and professional development

USAC General Representative 1 Cabinet, UCLA

Los Angeles, CA

PR & Media Director

September 2025 – Present

- Own communication strategy for 6 student-facing initiatives, translating policy goals into clear, user-centered value propositions
- Lead go-to-market execution for events, planning launches, optimizing channels, and driving student awareness and participation
- Analyze student engagement to iterate messaging, coordinating with USAC members and designing social media campaigns
- Partner cross-functionally with 4 cabinet members and USAC to prioritize initiatives and deliver consistent, on-brand launches
